

OMADA ROSEMARY CHINONSO

Frontend Developer

Independent Layout, Enugu State, Nigeria • omadachinonso2@gmail.com • 08138332117 • github.com/RossyTech3833

PROFESSIONAL SUMMARY

Motivated Frontend Developer with hands-on experience building responsive, user-friendly web applications using React.js, TypeScript, Tailwind CSS, and TanStack Query. Proficient in state management, RESTful API integration, and performance optimisation. Demonstrates a strong eye for detail, clean code practices, and a genuine passion for delivering seamless user experiences. Experienced in deploying projects to production and continuously improving through personal and open-source contributions.

TECHNICAL SKILLS

- Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Next.js
- State Management & Data Fetching: TanStack Query (React Query), Context API
- Backend & Databases: Firebase (Auth, Firestore), JSON Server, REST API
- Version Control: Git, GitHub
- Testing: Jest
- Tools & Deployment: WordPress (theme customisation, landing pages), GitHub Pages, Vite

WORK EXPERIENCE

Frontend Developer | Freelance & Personal Projects | 2023 – Present

- Designed and developed responsive web applications using React.js, TypeScript, and Tailwind CSS.
- Integrated TanStack Query for efficient server-state management, caching, and background data synchronisation.
- Built and deployed a personal blogging platform using Firebase for authentication and content management.
- Created an interactive e-commerce website with shopping cart functionality and REST API integration.
- Contributed to open-source projects by fixing bugs and improving UI components.
- Collaborated with designers in online communities to enhance project functionality and user experience.

PROJECTS

Admin Dashboard

- Built a full-featured Admin Dashboard using React.js, TypeScript, and TanStack Query for data fetching and caching.
- Implemented full CRUD functionality — admin can view, add, edit, and delete members alongside their todos and posts.
- Integrated optimistic updates and query invalidation for a smooth, real-time user experience.
- Deployed to GitHub Pages.

Personal Blogging Platform

- Developed a responsive blog with React.js and Firebase for content management and user authentication.

- Implemented Firebase Auth for secure sign-in and user authorisation.
- Deployed via GitHub Pages.

E-Commerce Website

- Built a fully responsive online store with product listing, cart functionality, and checkout flow.
- Integrated Firebase for product storage and real-time inventory updates.
- Applied lazy loading and caching techniques to improve page performance.

Mini Blog Post App

- Built with React.js and TypeScript, styled with Tailwind CSS.
- Features include post creation, likes, and comment sections.
- Deployed to GitHub.

Portfolio Website

- Designed and developed a personal portfolio showcasing projects, skills, and contact information.
- Ensured fast loading times and smooth animations for an optimal user experience.

Metrolux Paint — WordPress Landing Page

- Designed and developed a professional landing page for a paint production and services company using WordPress.
- Customised theme layout, typography, and colour scheme to reflect the brand identity of Metrolux Paint.
- Ensured a fully responsive, mobile-friendly layout with fast load times and clear calls to action.
